Dear Sir:

This communication is in response to the Office Action mailed April 18, 2006, setting forth a Restriction Requirement in the above-identified application. The Examiner required restriction to one of the following inventions under 35 U.S.C. § 121:

I. Claims 1-4 and 10-22, drawn to a dispersion of particles in a non-aqueous non-silicone organic medium comprising at least one acrylic monomer and at least one carbon-based macromolecule.

II. Claims 5-9, drawn to a dispersion of particles in a non-aqueous non-silicone organic medium comprising at least one acrylic monomer and non-acrylic vinyl monomer and at least one carbon-based macromolecule.

III. Claims 23-27, drawn to a cosmetic or pharmaceutical composition.

In response, Applicant hereby elects the invention of Group I, corresponding to claims 1-4 and 10-22. Applicant reserves the right to file one or more divisional applications corresponding to the non-elected claims.

RESPONSE TO ELECTION OF SPECIES

The Examiner has requested that a species be elected from among the acrylic monomers recited in claims 3 and 4. Applicant hereby elects "methyl (meth)acrylate." Applicant believes that claims 1-4 and 10-22 are readable on this election.

The Examiner also has requested that a species be elected from among the carbon-based macromolecules recited in claims 10 and 13-16. Applicant hereby elects "polyethylene/polybutylene copolymers." Applicant believes that claims 1-4 and 10-12 and 15-22 are readable on this election.

Should the Examiner have any questions regarding the foregoing, the Examiner is invited to contact the undersigned at the Examiner's convenience at (908) 654-5000. In the event that any fee is due in connection with the present response, the
